

Good Morning Parents,

Monday and Tuesday, May 20th and 21st the firefighters from Henrietta fire department will visit RNS. They will be talking to the children about safety and will show the children what they wear on a fire call. If the weather is nice the firefighters will show the children the fire trucks in the parking lot. If you feel that your child might be a little nervous about the visit from the fire fighters please let me know so I can be sure we have a teacher close to reassure your child.

Wednesday and Thursday we will be planting grass seeds. Our project will be called a "grass person." The children will draw a face on a Styrofoam cup, fill the cup with soil and plant grass seed. We will talk about what the grass seed needs to grow. When it starts to grow it will look like hair. Our project will not be coming home until the grass seed starts to grow and we give our grass man a haircut using scissors.

Mrs. Payne will be visiting for music class on Wednesday and Thursday. It is always a treat when Mrs. Payne comes to class. She will sing some fun spring songs with the children. I am sure all the children will enjoy it.

Fridays class our project will be an ant picture. We will be using our fingerprints to make the ants. We will talk about ants and will sing "When the Ants Go Marching In."
