

Hello families,

I hope the children all shared with you about Teddy Bear week. We had a lot of fun!

This week will be number week in our classroom. All of our toys, songs and activities will be number related. Monday and Tuesday we will be making a gumball machine. The children will add circles to represent the gumballs and then count how many they have added.

On Wednesday and Thursday, we will be making a number kite. The children will have an opportunity to practice with scissors again by cutting out their kite. They will then count a number of clouds to add to their kite.

On Friday we will make a number book. Each page will have a number written on it and the children will add the number of stickers that corresponds with each number.

I hope you all enjoy your weekend and we will see you soon!

Joan
